The "Toric" lens is ground with a deep, inner curve, which permits of the lens being placed much closer to the eye, allowing a wider range of vision with no perceptible edges or annoying reflections. The "Toric" lens is for particular people who want the best and are satisfied with nothing less. It costs a little more, but it is worth it. We fit the "Toric" in eye-glass or spectacle.

Literature giving information on fraudulent and alleged "cures" for consumption will be sent to clergymen all over the country, and an organized crusade against the traffic in these drugs and devices will be instituted. The literature will be sent to clergymen either directly from the national association office in . New etc. You should not permit any medicine to be given to your children without York or through the many state and you or your physician know of what it is composed. Castoria does not conlocal anti-tuberculosis associations! throughout the country. It is estimated that over 100,000 clergymen will be reached in this way.

From actual records on file in the office of the national association, i is estimated that the volume of business done annually by the various concerns who sell fake remedies for tuberculosis amounts to well over \$15,000,000. The number of these remedies now being used as so-called "cures" is over 500.

Three classes of "cures" are distinguished by the association. In the first class are included hundreds of devices and drugs. The second class of "cures" includes the "institutes," "professors," or companies of "doctors," who, for a consideration, guarantee to cure consumption by some secret method of which they are the sole proprietors. There are said to be nearly 150 of these institute frauds in the United States, cheating the people out of millions of dollars annually. In the third class of "cures" are placed a number of home-made rem edies, which either through ignorance or superstition have been advanced as

treatments for tuberculosis. None of these remedies will cure consumption, declares the national association. The only cure for tuberculosis recognized by the national as-SAN FRANCISCO 17 Powell Street sociation consists of the combination of fresh air, good food, and rest taken of fresh air, good food, and rest taken under the direction of a competent
